PROFESSIONAL SUMMARY

Innovative product manager specializing in AI-powered learning and content products, with 6+ years of product management experience and 10 years of prior teaching. I combine hands-on Python/JS development with product strategy to ship features that improve activation, reduce churn, and drive multimillion-dollar revenue impact. Recently, I led AI content initiatives that lifted conversion by over 3% and added \$6M+ in annualized revenue, while reducing post-release issues by 40%.

SKILLS

- Product & Strategy: Roadmapping, product discovery, A/B testing, PLG funnels, KPI design, stakeholder management, competitive analysis, agile methodologies.
- Data & Analytics: Python, Pandas, scikit-learn, funnel and cohort analysis, dashboards (Excel, Dash), KPI tracking, user and UX research.
- AI & Content: Generative AI workflows, prompt engineering, AI/human content design, evaluation frameworks, AI-driven product development, content strategy.
- Engineering-adjacent: JavaScript, React, MongoDB — used for prototyping, internal tools, and data plumbing; capable of writing scalable, testable, maintainable code.

WORK EXPERIENCE

Product Manager II, Global Content, 04/2024 - Current

BOLD

- Lead product for AI-generated career document content across 10+ projects, combining generative AI with human curation to lift conversion by over 3% and generate \$6M+ in annualized revenue.
- Own end-to-end lifecycle from discovery to iteration: define KPIs, run experiments, and coordinate design/engineering/data to ship on time and reduce post-release issues by 40%.

- Design AI/human workflows that balance quality, speed, and cost, including prompt strategies and internal tooling for editors.
- Build and maintain user stories, specifications, and experiment plans that align cross-functional teams.

Product Manager, Data Programs, 04/2021 - 02/2024

TripleTen (formerly Yandex.Practicum)

- Owned strategy and roadmap for Data Science and Data Analyst programs, leading a 25-person cross-functional team across content, engineering, and student support.
- Reduced drop/refund rate quarter-on-quarter by improving onboarding, adjusting pacing, and introducing early intervention triggers informed by cohort analysis and student feedback.
- Launched program features (capstone redesign, project feedback tooling) that increased completion rates and improved NPS by 1.5 points.

Data Programs Content Lead, 12/2020 - 04/2021

TripleTen

- Built and managed a 15-person content team; owned English-language style guides, knowledge base, and video/design materials for data programs.
- Created tools and processes for proactive content monitoring, enabling faster curriculum iteration.

Lead English Instructor, 08/2015 - 12/2020

Moscow Lyceum Stupeni – Moscow, Russia

- Designed English curricula for grades 2–11 and prepared students for Cambridge/IELTS/TOEFL exams, achieving a 100% pass rate.
- Led a weekly theater program and annual debate tournament; built an automated tabulation system for results and maintained a digital teaching-materials database for the foreign-language staff.

English Instructor, 08/2012 - 07/2015

The American Home – Vladimir, Russia

- Designed and delivered lessons from beginner to advanced levels; organized weekly cultural events and lectures.
- Authored and edited course books and built an automated grade and homework tracking system for 100+ students.

EDUCATION

Bachelor of Arts: Psychology & Russian Language and Culture, 2012

Vanderbilt University - Nashville, TN

- Research: Memory structures in patients with schizophrenia (published work).
