PROFESSIONAL SUMMARY

Senior-level Product Manager with 6 years of experience building AI-powered platforms at global scale. Currently own an 8-API content platform generating \$10M+ annual revenue across 35+ portals and 15+ languages, leading a cross-functional team of 15. Track record of 2.5x revenue growth, >3% average conversion lift through experimentation, and 40% reduction in post-release defects. Hands-on with Python/JS, prompt architecture, and multi-LLM evaluation (OpenAI, Anthropic, Gemini).

CORE EXPERTISE

AI/ML Product Development | Platform & API Architecture | Prompt Engineering | Multi-LLM Evaluation | A/B Testing & Experimentation | Python, SQL, React | Cross-Functional Leadership | International Product Management (15+ Languages)

EXPERIENCE

Product Manager, AI Content Platform | BOLD

Apr 2024 – Present

- Own AI content platform: 8 production APIs serving 35-40 global portals across 15+ languages, generating \$10M+ annual revenue (92% of team's monthly impact).
- Lead cross-functional team of 15 (engineering, data science, content, UX); present product strategy biweekly to CPO. Build prompt engineering capability across content team through hands-on training.
- Design prompt architecture framework for live variable-based generation and JSON output structures; drive migration from static to dynamic API-driven personalization. Maintain 18-month product vision and autonomous roadmap.
- Launch 2 products from 0-to-1 (resume-to-job-ad tailoring API, job title recommender); establish multi-provider LLM evaluation process and reusable prompt library.
- Grow platform revenue 2.5x (\$4M to \$10M+); achieve >3% average conversion lift; reduce post-release defects 40% YoY.

Product Manager, Data Programs | TripleTen (formerly Yandex.Practicum)

Apr 2021 – Feb 2024

- Owned strategy and roadmap for Data Science and Data Analyst bootcamp programs, leading 25-person cross-functional team serving 1,000+ students annually across English and Russian markets.
- Reduced drop/refund rate quarter-over-quarter through data-driven interventions: redesigned onboarding, implemented early-warning triggers via cohort analysis, and improved pacing from student feedback loops. Lifted NPS by 1.5 points.
- Launched capstone redesign, automated feedback tooling, and educational video initiative; built analytics dashboards and predictive models for student success.
- Managed program P&L and revenue targets; presented quarterly business reviews to executive leadership.

Data Programs Content Lead | TripleTen

Dec 2020 – Apr 2021

Built and managed 15-person content team; owned English-language style guides, knowledge base, and content monitoring processes for data programs.

English Language Instructor → Lead Instructor | Moscow, Russia

Aug 2012 – Dec 2020

Taught English from beginner to advanced levels across two schools; progressed to Lead Instructor designing curricula for grades 2–11 with 100% student pass rate on Cambridge/IELTS/TOEFL exams. Built automated systems for student tracking, grading, and debate tournament operations.

EDUCATION & LANGUAGES

Bachelor of Arts: Psychology & Russian Language and Culture | Vanderbilt University | 2012

English (Native) Russian (Full Professional Proficiency)
